11:00 a.m. ET

Jim Kitchens: Yes. Before we get started I'd like to say something. It's Jim Kitchens here in Athens.

Sarah Buchanan: Hi Jim.

Jim Kitchens: That I had the opportunity to actually use and manage Vocabulary for a project that I was on and it worked very well. Although we need to populate it with a lot more terms.

Female: Did you tell (Lynn Patterson)?

Jim Kitchens: Yes. I had to get authority to get in there.

Female: But it was a good experience? So that's...

Jim Kitchens: Yes. Well it was very good. I was producing a glossary for a guidance paper and a lot of terminology is just not available outside of the EPA and it made it very easy to find anything that the agency had generated. Not that we would make our own language or anything. Heaven forbid.

Female: Thanks Jim.

Female: Sarah, it is about seven after. Do we want to start or do we want to give it a couple more minutes?

Sarah Buchanan: Yes, let's – because I know (Monica) has to go. Let's go ahead and get this show on the road.

(Susan Stacy). : All right. I agree. Well good morning everyone and welcome to the QCIX. This is (Susan Stacy). I'm the facilitator for the monthly call. I just want to remind you as always to please keep your phones muted when you're not speaking. And that will help presenters to have the opportunity to really clearly present their topics.

OK we have somebody who has not got their phone on mute. OK. Thank you.

We've got several presenters today. And we'll get started with introducing those presenters and as I call your name if you would please just let me know that you are on the line. (Monica Jones)?

(Monica Jones): Here.

(Susan Stacy): (Katherine Chalfant)?

(Katherine Chalfant): Here.

(Susan Stacy): (Vincia Holloman)?

(Vincia Holloman): I'm here.

(Susan Stacy): Dawn Banks? OK. Sarah, if you could check and see where (Dawn) is.

(John Warren)? (John Warren)?

(John Warren): Yes.

(Susan Stacy): OK. (Lora Johnson)?

(Lora Johnson): Here.

(Susan Stacy): (Kevin Barnes)? Well we're missing (Kevin) and ...

Female: ...check on (Kevin).

(Susan Stacy): OK. And (Bill), I'm going to, (Bill Batschelet)? Is that correct?

(Bill Batschelet): Yes.

(Susan Stacy): OK, great.

(Bill Batschelet): Good morning.

(Susan Stacy): And you're on. Thank you. And (Anne Mangiafico)?

(Anne Mangiafico): I'm here.

(Susan Stacy): OK, great. Did I pronounce your name please correctly?

(Anne Mangiafico): It's close enough. (Mangiafico).

(Susan Stacy): (Mangiafico). OK, great. Thank you. And last but not least, there is (Kevin) who is walking us through Abode Connect today and we appreciate all of that. We will get the call started with our normal updates from the QCIX and we're going to have a director update from (Monica). (Monica)?

(Monica Jones): Thank you. Sorry I have to leave a little early today. I have another meeting directly between this at 11:30 as a matter of fact. I just want to just give you a few updates. don't have many this month.

Some of you may be aware but we actually had a detailed announcement out for environment protection specialists. We've got eight candidates. We've completed our interviews and in the process now of verifying some of our references and hope to make that selection within the next week or so.

I also want to take the time to thank (Gina Grepo-Grove) from Region 10. We've been doing trial consultations and we had an invitation to do one in Region 10. And it was more cost effective since (Gina) was going to the tribal summons anyway that she agrees that she would do the presentation and computation for us. So a special thanks to (John) and (Katherine) for helping prepare her presentation and sending it to (Gina). So just want to say a thank you to her for doing that on our behalf.

(Susan Stacy): With that we will move to close the call. we're about ten after our allotted time but that's OK. we wanted to make sure to get everybody in and an opportunity for everyone to make comments.

(Sarah), would you please give us information on the next call date, any agenda items that you want, when you would like them in.

(Sarah): Yes. So the next call is going to be May 10th and I will send out the request for agenda items this afternoon. Presenters if you could please write a small paragraph, I'll send an e-mail requesting this on your topic for the summary and April 25th is going to be the due date for your agenda topics.

We need agenda items. It sounds like we got one but please send your agenda items to your community lead, that would be (Lora Johnson), (Terry Simpson) and (Mary Clark). And they will get those to me by the 25th of April and we will have a fun agenda for next month.

(Susan Stacy): All right, Sarah, thank you very much. I want to thank all of our presenters. This was an excellent call. A lot of very good information was presented with an opportunity for questions and responses. As always if there are topics that you have, additional questions or comments you could direct those towards the presenters listed on the agenda.

And with that we will close the call and I again thank everyone and we will talk to you in May. Have a great day.

Male: Bye.

Female: Bye.

Female: Bye.

Female: Bye.
